Personal Profile

I have worked for 6 years as a software developer, serving as an impact-driven front-end engineer specialising in scalable React architectures, designing systems that elevate user experience and accessibility.

I became adept at shaping robust, maintainable interfaces while strengthening ownership across codebases, pipelines, and deployments. I have been a trusted contributor who embeds inclusive design principles, improves delivery reliability, and strengthens platform quality through rigorous collaboration and problem solving.

Valued for bringing clarity to complex technical environments and enabling teams to deliver resilient, high-performing digital products.

Key Skills

- **Work experience:** 6 years industry experience in with ReactJS/TS, HTML/CSS, NodeJS, GraphQL, WCAG/ARIA, and CI/CD.
- **Eye for detail:** Awarded for delivery of high-quality code which went above-and-beyond in delivering accessible, WCAG/ARIA-compliant components.
- **Communication:** Excellent verbal skills, with experience working in a Agile scrum and interacting between different teams and departments.
- **Adaptability:** Quick to develop and refine skills as needed, experience moving effectively between teams and frameworks.
- **Comprehension:** Knowledgeable of systems analysis and development, keen to research, documenting and sharing my skills as I develop them.
- **Additional competencies:** Working knowledge of Java, SQL, shell scripting, and C.

Employment Experience

Mar 2019 – Jan 2026	Sky	Developer
• Scripted and maintained codebases, formed ReactJS/TS, HTML/CSS, and GraphQL. • Was the accessibility champion for my team, suggesting improvements and maintaining W3C/WCAG standards. • Comprehensively tested in a TTD framework with both unit and end-to-end tests. • Responsible for releasing and smoke-testing during night-time conference calls with shareholders. • Delivered presentations to colleagues and shareholders on varied topics. • Worked in an Agile framework to maintain and support applications. • Discussed product-owner's requirements and potential development ideas. • Collaborated with UX/UI team to refine component functionalities and designs.		

Education & Training

- Jan 2019 – Mar 2019 Foundational Software Training FDM Training Academy
- Sep 2017 – Jun 2018 PGDE, Secondary Education: Pass University of Glasgow
- Sep 2012 – Jun 2017 Mathematics and Physics: 2:2 Strathclyde University

Hobbies

My hobbies include cycling, reading, and studying science recreationally.
